

KYROS

Capability statement

SUMMARY

Kyros Software Ltd delivers software and digital services to the UK public sector. We take projects from discovery to live: design, build, host and support. One team, one contract, one point of accountability.

CAPABILITIES

- Digital services — discovery to live, following the GOV.UK Service Standard
- Software engineering — web applications, APIs, internal tools, legacy modernisation
- Cloud, hosting and support — UK/EU hosting, infrastructure, DevOps, monitoring
- Data, AI and automation — data pipelines, dashboards, workflow automation, applied AI
- Security, identity and compliance — secure-by-design, IAM, GDPR, WCAG 2.2 AA

DIFFERENTIATORS

- UK-registered company (Co. 16915277)
- All staff vetted to BPSS as a minimum
- UK and EU data hosting
- One team end-to-end: discovery, design, build, hosting and support

PRODUCTS

- Selio — AI content automation (tryselio.com (<https://tryselio.com>))
- AffRev — marketing platform (affrev.com (<https://affrev.com>))
- Streakal — focus and distraction blocking (streakal.com (<https://streakal.com>))
